

1. List the type of the courses “Statistics” and “Programming”

```
mysql> select coursetype from course where coursedesc in ('computer science 101','mathematics 201');
+-----+
| coursetype |
+-----+
| mandatory |
| elective   |
+-----+
2 rows in set (0.00 sec)
```

2. The instructor wants to know the CourseNos whose scores are in the range 50 to 80

```
mysql> select courseno from studentscores where score between 50 and 90;
+-----+
| courseno |
+-----+
| C001     |
| C002     |
| C001     |
| C002     |
| C001     |
| C002     |
+-----+
6 rows in set (0.00 sec)
```

3. Find the average mark of “C002”.

```
mysql> select avg(score) from studentscores where courseno='C002';
+-----+
| avg(score) |
+-----+
|      75.0000 |
+-----+
1 row in set (0.00 sec)
```

4. List the maximum, minimum mark for “C002”

```
mysql> select min(score),max(score) from studentscores where courseno='C002';
+-----+-----+
| min(score) | max(score) |
+-----+-----+
|          65 |          85 |
+-----+-----+
1 row in set (0.00 sec)
```

5. List the maximum, minimum, average mark for each course

```
mysql> select min(score),avg(score),max(score) from studentscores group by courseno;
+-----+-----+-----+
| min(score) | avg(score) | max(score) |
+-----+-----+-----+
|          70 |      80.0000 |          90 |
|          65 |      75.0000 |          85 |
+-----+-----+-----+
2 rows in set (0.00 sec)
```

6. List the name of the courses and average mark of each course.

```
mysql> select courseno,avg(score) from studentscores group by courseno;
+-----+-----+
| courseno | avg(score) |
+-----+-----+
| C001     |      80.0000 |
| C002     |      75.0000 |
+-----+-----+
2 rows in set (0.00 sec)
```

7. Calculate the sum of all the scores.

```
mysql> select sum(score) from studentscores;
+-----+
| sum(score) |
+-----+
|          465 |
+-----+
1 row in set (0.00 sec)
```

8. How many students are registered for each course? Display the course description and the number of students registered in each course.

```
mysql> select coursedesc,count(studentno) from studentscores group by coursedesc;
+-----+-----+
| coursedesc | count(studentno) |
+-----+-----+
| CSE       | 3                |
| MATH      | 3                |
+-----+-----+
2 rows in set (0.00 sec)
```

9. How many courses did each student register for?

```
mysql> select studentno,count(coursename) from studentscores group by studentno;
+-----+-----+
| studentno | count(coursename) |
+-----+-----+
| S001      | 2                  |
| S002      | 2                  |
| S003      | 2                  |
+-----+-----+
3 rows in set (0.00 sec)
```
